PROSPECTUS

OF THE

BELMONT TANNING

AND

Boot & Shoe Manuf'ng

Company, Limited.

CAPITAL $100,000—With power to increase. Divided into,

1000 Shares of $100 Each

Deposit 10 per cent.; Calls, not exceeding $10 per Share, at intervals of not less than 30 Days.

PROVISIONAL DIRECTORS:

R. FINLAYSON, E. GRANCINI,
J. H. TURNER, M. W. T. DRAKE,
JOHN SWITZER, T. L. STAHLSCHMIDT.
Solicitors—DRAKE & JACKSON.

BANKERS:
BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR the purpose of acquiring the property known as the Belmont Factory, situate on Esquimalt Harbor, and the business carried on therein, consisting of Tanning, and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of labor.

The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to nearly $30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom House for the year 1871, was about $100,000, representing a selling value, after adding duties, etc., of say $150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c, in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent has first been paid to the new shareholders.

Applications for shares may be made to the Secretary *pro tem.*, the Bank of British Columbia, or to Messrs. Drake & Jackson. ma21

To Our faithful the Members elected to serve in the Legislative Assembly of Our Province of British Columbia, and summoned and called to a meeting of the Legislature of Parliament, of Our said Province, at Our City of Victoria on Monday the Seventh day of July, next, to have been commenced and held, and every of you,—GREETING.

A PROCLAMATION.

GEO. A. WALKEM, *Attorney-General.* WHEREAS the meeting of the Legislature of Parliament of the Province of British Columbia, stands called for Monday the Seventh day of July next, at which time, at Our City of Victoria, you were held and constrained to appear:

NOW KNOW YE that for divers causes and considerations, and taking into consideration the ease and convenience of Our loving subjects, We have thought fit, by and with the advice of Our Executive Council of the Province of British Columbia, to relieve you, and each of you, of your attendance at the time aforesaid; hereby convoking, and by these presents enjoining you, and each of you, that on MONDAY, the TWENTY-FIFTH day of the month of AUGUST next you meet us in our Legislature, or Parliament, of the said Province, at Our City of Victoria, and therein to do as may seem necessary. Herein fail not.

IN TESTIMONY WHEREOF, we have caused these Our Letters to be made Patent, and the Public Seal of the said Province to be hereunto affixed: WITNESS, the Honorable JOSEPH WILLIAM TRUTCH, Lieutenant-Governor of our said Province of British Columbia, in Our City of Victoria, in Our said Province, this Twenty-fourth day of June, in the year of Our Lord one thousand eight hundred and seventy-three, and in the thirty-sixth year of Our Reign.

Pacific Railroad Scheme—Senator Macpherson's Statement.

The publication of Sir Hugh Allan's letters to Smith, McMullen & Co., on the subject of the Canada Pacific Railway charter, presents a sad picture of high-toned immorality for the contemplation of honest Canadians. It has not only drawn from Sir Hugh a sworn affidavit covering three columns of the Toronto *Mail*, having for its object the exculpation of Sir John A. Macdonald and his ministerial colleagues from the charges brought against them by Mr. Huntington, of having taken money from Sir Hugh in consideration of his getting the railway charter, with which to corrupt the electors of the Dominion and secure for the Government a majority in the House of Commons, but it has also drawn from Senator Macpherson a lengthy statement of his connection with the affair, in which he flatly contradicts certain statements made by Sir Hugh Allan, and gives further reasons than had heretofore been made public why he refused to have anything to do with Sir Hugh's scheme. The subject is one in which the people of British Columbia are so deeply interested, that we feel assured whatever is calculated to shed additional light upon it will be acceptable to our readers. It is with this object in view we make a few quotations from Senator Macpherson's statement. Those portions of it which refer to misstatements made by Sir Hugh with reference to himself, we pass over as being of no very great importance to the public, but rather of a personal character. No one who will read Macpherson's statement, that has a spark of patriotic feeling in his composition, but must commend the stand he took against the proposal of the Knight of Ravenscraig to hand over to a company of American capitalists nearly the entire control of our great interoceanic railway, and many of them stockholders and directors of the Northern Pacific Railway, a competing line, and one likely to be seriously affected as a commercial enterprise by the construction of the Canada Pacific line. Had we not the evidence of Sir Hugh's own published letters, we could scarcely be induced to believe such a thing possible. But it is, alas, too true. Sir Hugh, in February, 1872, sought an interview with Mr. Macpherson, and proposed to him that he should join him in undertaking the construction of the Canada Pacific Railway. Mr. Macpherson replied that before he could consider such a proposal, he must have some general idea of his scheme for carrying out the enterprise. He then says, "He (Sir Hugh) informed me that he had it understood with the Government that the undertaking should be placed in his hands, and that he had secured the co-operation of parties in New York, of great wealth, who would subscribe the greater part of the share capital, which it was proposed to fix at $10,000,000. With the assistance of these American capitalists, he had no doubt the enterprise could be carried to completion successfully. He said that he proposed to place the management in the hands of a Board of eleven Directors, of whom six, including the President, should be British subjects, resident in Canada, and five should be Americans, resident in the United States. The names of the five Americans whom Sir Hugh proposed to place on the Board of Directors, were: J. G. Smith, Geo. W. Cass, Wm. B Ogden, of Chicago; T. A. Scott, of Philadelphia, and Jay Cooke, of New York; all Directors of the Northern Pacific Railway Company—the two first named being the President and Vice-President of the Company. Mr. Macpherson says: "I took exception to the proposed organization of the company, and remonstrated against giving our rivals the control and ownership of our transcontinental railway, which could only be carried out with Canadian subsidies in money and land. I pointed out to Sir Hugh that the Americans he referred to would not invest money of their own in the enterpise; that apparently they had none to invest in such enterprises, for that they had obtained from Europe all, or almost all, the capital employed so far, in constructing the Northern Pacific Railway; that if they were allowed to hold the major part of the stock, as he proposed, they would be complete masters of the Canadian Pacific Railway; that this would enable them to subordinate its trade arrangements to their interests in the United States, that it would give them control of the settlement of the large territory to be granted to the Company in our North-west, and, that they might, and possibly would, embarrass its settlement as to imperil the very peace of Canada. Sir Hugh dissented from all these opinions, and in expressing surprise that I should entertain such narrow views, said that he took a cosmopolitan view of the question, that in stipulating that a majority of the directory should be British subjects, resident in Canada, he had sufficiently guarded Canadian interests. He added that he was unable to state precisely how the stock ($10,000,000) would be apportioned; that that was being determined in New York; that he expected to be fully advised on his return to Montreal, and would communicate the information to me. I objected also to the composition of the Canadian portion of the Board, as proposed by Sir Hugh Allan, and urged that it did not fairly or sufficiently represent the various Provinces of the Dominion. I said that Mr. McInnes and myself would not be a sufficient representation from Ontario, and that there was no representative from British Columbia, the Province of all others most interested in the railway. Sir Hugh said that he considered the Board as proposed a good one, and that if British Columbia were represented, the Maritime Provinces would also expect to be represented. I replied that I thought they ought to be represented; that the undertaking was a Dominion one in the broadest sense; that all the Provinces should have the opportunity of taking an interest in the Company, and of being represented at the Board; that I was quite certain Parliament would not assent to, or the country tolerate any scheme which would place the Canadian Pacific Railway and its subsidies in the hands of foreigners and rivals." On the 27th February, 1872, Sir Hugh wrote to Mr. Macpherson from Montreal, informing him that he had received certain papers from New York, indicating the amount of stock that had been allotted to him for distribution among Canadian stockholders, amounting in the aggregate to $1,450,000. Two days after (29th February) Mr. Macpherson wrote to Sir Hugh as follows: "I have to thank you for your letter of 27th instant, informing me that there had been allotted to you in New York shares in the Canada Pacific Railway for Canadians to the amount of $1,450,000, and mentioning how you propose to divide the same. Since you asked me to allow my name to appear in the charter as one of the Provisional Directory I have carefully considered your scheme and have become convinced that Parliament will not assent to it in its present shape, or to any scheme which like it would place our great Transcontinental Railway forever under the absolute control of our rivals, our American neighbors. This would be effected by giving to them as you do seventeen-twentieths of the whole stock of the Company. Why should this be done? Canada must give the means in money and land to build the railway. Why should we hand over the control and ownership of the line with all its incalculable advantages, direct and indirect, during construction and forever, to foreigners? Such an arrangement is not indispensable to the building of the road, and nothing short of this in my opinion would justify it. Second only in importance to obtaining the railway is the securing the control of it with all its benefits to our own people. We have in Canada men of sufficient ability to carry out this undertaking successfully, whose character and means would be ample guarantee to the Government and the country for the fulfilment of their engagements. Money would have to be obtained from abroad, but the securities would be Canadian, and the negotiations should be directed by Canadians." The above is but a brief outline of Mr. Macpherson's statement of the case, but it contains enough to satisfy every candid reader that if Sir Hugh Allan's scheme had been allowed to pass unchallenged, the Dominion Pacific Railway would have been gobbled up by Jay Cooke & Co., and with it thirty million dollars of Canadian money and fifty million acres of Canadian soil, and our railway, instead of being an independent Canadian line, employed in the development of Canadian commerce and resources, would simply have been used as a grand feeder for the Northern Pacific line and as a means for promoting the interests of the Western States and the development of their boundless resources. Sir Hugh has got the charter, but will the Dominion Government, under the circumstances, allow him to retain it?

JOHN ASH.
Provincial Secretary.

The Secretary of State to the Lieutenant-Governor.

[No. 331.] OTTAWA, 30th June, 1873.

SIR,—With reference to my letter of the 10th inst., I have the honor, by command of His Excellency the Governor General, to transmit to you a copy of an order of His Excellency in Council, conveying the answer of the Dominion Government to your Despatch of the 27th May last, covering a copy of a Minute of your Executive Council expressing the pain and regret occasioned throughout the Province of British Columbia by the announcement of the recent death of the Honorable Sir George E. Cartier.

I have &c.,
(Signed) E. A. MEREDITH,
Under Secretary of State for the Provinces.

Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor-General in Council, on the 16th day of June, 1873.

The Committee of the Privy Council have had under consideration a despatch from the Lieutenant-Governor of British Columbia to Your Excellency, of the 27th May last, transmitting a minute of his Executive Council, conveying on behalf of the Government and people of British Columbia to Your Excellency information of the pain and regret occasioned throughout that Province by the announcement of the recent death of Sir George E. Cartier.

The Committee of the Privy Council are much touched by this expression of the sympathy of the people and Government of British Columbia in the general sorrow occasioned by the death of their late colleague, and they gratefully acknowledge their sense of the warm expression given in the despatch by the Lieutenant Governor to his own deep sense of grief on the occasion.

H.M.S. Repulse Arrives in Esquimalt Harbor.

H. M. armor plated ship Repulse, flag of Vice-Admiral Charles F. Hillyar, arrived at half-past eleven a. m. on Saturday from England, via South American ports and Honolulu. She left over twelve months from Plymouth; touched and stayed at several South American ports on her way; and is twenty-nine days from Honolulu, S. I. From the latter port she used sail only until arrival off Cape Flattery, when steam was got up. The Repulse, the most powerful vessel probably which has yet ploughed the waters of the Pacific, is 3,749 tons; with engines 800 horse power; carries 12 immense guns, and although the Zealous had on board 20 guns, the Repulse can fire a broadside throwing nearly three times as much metal. A few of her officers have been on the Pacific station on former commissions. Lieutenant Needham, son of Mr. Needham, who was formerly Chief Justice of Vancouver Island and who has since been knighted by Her Majesty, was on this station a few years since. Our citizens will be pleased to hear that a fine band is on board this noble vessel, and it is not at all unlikely that we shall be treated at intervals with music for which naval bands are noted. The following is a list of officers of this fine specimen of naval architecture:

Vice-Admiral, Charles F. Hillyar, C. B.
Flag-Lieut., Fred'k B Boardman.
Secretary, Rob't W. Parish.
Clerks to Secretary—Gervase F. Matthew, Robt. L. Dymott.

Captain, Chas. T. Curme.
Commander, Fred'k S Vander Meulen.
Lieutenants—Fred'k A. Wetherall, Francis Romilly, Chas. P. G. Hicks, Lambton L. L. Bevan, Raymond B. Needham, Wm. Neilson.
Staff Commander, Henry S. Ley.
Chaplain, Rev. George M. Sutton, B.A.
Captain R.M.A., Fred'k A. Ogle.
Lieut. R.M.L.I., — Coleridge.
Staff Surgeon, Wm Hoggan.
Paymaster, Edward W. M. Millman.
Naval Instructor, Wm W. Lane.
Chief Engineer, Robt. J. Wilson.
Sub-Lieutenants—Charles W. Hicks, Henry E. Bourchier, Gerard J. Capes, Ralph W. Jones, Chas. W. P. Allan, Jas. H. P. Galloway, Rds. Thomas.
Nav. Sub-Lieutenant, Thos. T. Thomas.
Asst. Surgeon, Wm. B. Drew.
Asst. Paymaster, John A. Wood.
Engineers—Alex. F. McIntyre, Robt. Findlay, Henry Brown, John Baillie.
Gunner, C. Hunt.
Boatswain, Jonathan Barrow.
Carpenter, Robt. White.
Midshipmen—Edward L. Wilson, Hy. J. Lake, Keppel Wade, Wm. Hewetson, Chas. W. W. Ingram, D. Davies, Geo. L. B. Bennett, Harold Charrington.
Nav. Midshipman, Stanley A. B. Burney.
Asst. Engineer, Wm. E Bell.
Clerks—William S. Andrews, Francis F. Smith.

The Repulse left England on July 9th, 1872, has thickness of armour varying from 6 in. to 8; she draws in the neighborhood of 25 feet forward, and 27 feet aft, and carries a complement of about 520 men. She was visited yesterday by a large number of persons and one and all were enthusiastic in their eulogies as to the strict order and cleanliness maintained throughout the vessel. The ship presents in herself a perfect village, replete with everything necessary for the comfort of her inhabitants, and is furnished with the essentials to make her "dreadful" in time of war. She will probably remain in our waters some three months, more or less, meanwhile Admiral Hillyar will proceed to England on board H. M. ship Tenedos.

Those of our citizens who feel at all inclined to witness the very "pink" of perfection and order as regulated under naval command, will be well repaid by a visit to H. M ship Repulse, and can rely upon the utmost courtesy being extended to them by the numerous officers of the ship. A beautifully lined steam pinnace is amongst the many attractions worthy of particular notice.

Yesterday's Lectures.—Professor Chaney delivered his lecture on "Physical Life" and "Life Eternal," yesterday afternoon to a numerous assemblage, and in the evening terminated his course of lectures by an address on "Spiritualism." In his opening observations in the afternoon, the speaker said the two subjects of his lecture, viz., "Physical Life" and "Life Eternal" were so interwoven with each other that separate consideration was almost impossible. The clergyman, the doctor, the lawyer were spoken of as unnecessary, as their operations were curative rather than preservative. "I wish," said the lecturer, "for the establishment of a liberal college, of which I might be appointed the Professor, and in which, instead of, as with the clergy, pointing to the necessity of regeneration, I would advocate superior generation; that experiments for producing improved stock having been satisfactorily tested with the lower animals, such arrangements with the human race should be also acted upon. Only see," said the lecturer, "the sad effects of its being neglected, by the present number of idiots and cripples, and puny offspring." In the United States, he observed, some time since they had made wonderful improvements, and inventions, but in their zeal to excel in these matters, they had starved their love, and not cultivated the affections, and the result was a large number of the population were unhappy. Education based upon a proper consideration of the physical and mental peculiarities, with the view of judicious union of the sexes, the lecturer seemed to regard as the panacea for present evils. Education, he said, based upon such principle, would render unnecessary the clergy, the doctor, or the lawyer; but of course, he remarked, the representatives of these various professions will object to its introduction, as then, like Othello's "their occupation would be gone." The lecturer's arguments in favor of "Life Eternal, or Immortality," were based upon the assertion that as the spirit, or mind, could in this life leave physical organism, and travel to a distance, there communicating with relations or friends; of the truth of which he gave several illustrations as to what had taken place to persons when under the influence of dreams. So he contended when matter had become annihilated by the effect of death, man's soul or spirit would still live on. In the evening's lecture upon "Spiritualism" delivered to a full house, the lecturer gave his own personal experience, stating that for six years he had been a most determined opponent to spiritualism; but that eventually a communication from his wife in the spirit world had converted him; his version of spirit communication was, that many lies, and deceptions came from ignorant half developed mediums, but that from the higher order of the spirits the most exalted moral teaching. In answer to a question put at the close of the lecture "as to whether in consequence of the exalted character of the teaching of spiritualism, had the lecturer in his many years of experience in the United States noticed any marked improvement in the morals of the community?" The Professor said on the contrary, there had been retrogression, and particularly amongst church members. But that these remarks did not apply to those who were spiritualists.

The *Guardian* is informed that a meeting of the Fraser Valley Railway Company will be held to-day.

The *Herald* of Saturday has the following paragraphs:

Both the parties organized for the district surveys started out on Thursday. The work will be commenced from the point where the boundary line strikes Semiahmoo bay—from which point to the Fraser a line is already run. Mr Geo. Turner's party will work up towards Yale; while Mr. Matood's party will survey towards the Gulf of Georgia.

Mr. E. Dewdney, who left for the upper country on Wednesday, will survey some of the land east of the Cascades, for the local government.

The Maitland is ready for sea to-day, and will probably be towed out from the Hastings mills immediately by the Maude, which arrived up from Victoria last night.

Business is unusually brisk at the mills of Moody, Dietz & Nelson at present. Not even a siwash can be had for any reasonable consideration.

The ship St. Peter, Captain Webb, will be ready for sea on Wednesday, the 30th inst.

We hear that the road over Jackass Mountain has been closed for a few days for repairs.

The Fraser is said to be literally blocked with salmon, a few miles above Yale.

Mr. J. Deighton is building a fine hotel at Granville, Burrard Inlet.

Police Court.

[Before A. C. Elliott, Esq.]

Saturday, July 25th.

Ah Wing, a rogue and a vagabond, was remanded until Tuesday, to-morrow.

H. McIntosh, a drunk and disorderly person, was fined five shillings.

George Bright, a bright youth, supplying liquor to Indians was given four weeks hard labor. The same was given two weeks added for assaulting the officer when taking John to jail.

Charles Goineau, an old offender, for supplying Indians with spirituous liquors, was discharged, charge not coming home to him.

Hole and Corner Meetings.—We believe we anticipated very fully the result of the Esquimalt meeting held on Friday evening last. It invariably happens that assemblages in which the *Colonist* and its proteges have a hand, prove most signal failures, as witness that just mentioned, as also the Saanich affair, then the meeting on the water question when only twelve hands were held up to a resolution moved by one of the representatives of the *Colonist* to censure the Water Company, and lastly the famous meeting to condemn the fourth Portfolio, in which the same party, "our reporter," made a ludicrous exhibition of himself. It will be remembered the meeting was turned right against the object it had in view. Surely it is now fully time that "our contemporary" had begun to see itself as others see it.

Bears Feast on a Chinaman.—The latest received copy of the Cariboo *Sentinel* relates the following:—"By the arrival of the mail from the Forks of Quesnel we learn that a Chinaman was killed and eaten by cinnamon bears last week, on the trail between the Forks and Keithley Creek, and within a few miles of the latter place. The poor Mongolian was so completely demolished that only a few of his bones could be found within a radius of half a mile—just enough, we presume, on which to hold an inquest. The leading Chinamen at the Forks offer a reward of $100 per head for the guilty brains, which ought to be a sufficient inducement for some of our crack shots to take a "pasear" in that direction.

Robbery of Rev. Dr. Evans.—A late copy of the London, Ont., *Free Press* contains the following with regard to the robbery of this eloquent divine, who for many years ministered to the Wesleyan congregation in this city: "On Friday last the Rev. Dr. Evans, Governor of the Wesleyan Indian Industrial School at Muncey, on leaving the Great Western train at Toronto, was jostled by three men, and $340 taken from his pocket. One of the gang sat in a seat just in front of the Doctor, and probably there got sight of the prey on which he too successfully alighted. Detectives were employed, but the villains it is feared have eluded detection"

Serious Accident.—An accident of a serious nature befel Mr. Malcolm Munro, who recently left here with Mr. Hunter, C.E., to cut a trail from Howe Sound to the interior; during the work attendant upon this undertaking, near the Squamish river a tree which which had been cut down struck another, which fell and struck Mr. Munro on the left leg, breaking it a little above the ankle. The sufferer arrived here per the steamer Douglas on Saturday night, and has received medical attendance, and we are glad to say is progressing favorably.

From New Westminster.—The Enterprise on Saturday arrived at 3, p.m., with mails, treasure and express, Cariboo downwards, and the following among her passengers: Mrs. and Miss Newton, Mrs Cafferty, Mrs. Neale, Miss McDonald, Rev. Mr. Pollard, Dr. Featherstone, A. McDonald, Messrs. Beeton, Schooley and Parker.

The bark Alethea, recently purchased by Welch, Rithet & Co., has changed her name to Remijio, and is now registered under the Nicaraguan flag. She will proceed to Departure Bay to-morrow, and load with coal for San Francisco, where she will be entirely refitted. Captain Howard, formerly of Victoria, will command her.

For the Skeena.—The steamer Rose having been deemed not sufficiently capacious for freight offering for the voyage to the Skeena, before mentioned, the steamer Maude has been chartered, and will leave on Friday next for the north. Fifty tons of freight, and several passengers will go up, some to make the round trip.

Passengers per Prince Alfred.—The following passengers were booked on Saturday evening to sail per Prince Alfred: J. F. McCreight (for Salt Lake) A. R. Robertson, (for Ottawa) Mr. and Mrs. Brackett, L. Becker, W. Brian, L. Oppenheimer, R. Gunn, H. C. Beeton, R. W. Lewis, Miss Sutherland.

Qualification and Registration of Voters.—The Sheriff, R. Woods, Esq., under the provisions of the Act of 1871, will hold Courts of Revision at places announced as per advertisement in to-day's Daily, and to-morrow's Weekly Standard.

The Late Sir George.—Copy of a dispatch from the Government at Ottawa acknowledging dispatch of the Lieutenant-Governor of the Province, with regard to the death of Sir George Cartier, appears in another column.

For San Francisco.—The Prince Alfred will leave the wharf at 5 o'clock this evening.

Cariboo and the Upper Country.

The Richfield County Court appears to be kept busily engaged; Mr. Barnston on one side and Mr. Davie on the other, represent plaintiff and defendant and *vice versa*.

The roof of a house in Chinatown caught fire from a defective stove pipe. The Fire Brigade were quickly on the spot, and the fire extinguished before any serious damage was done.

A Chinaman had a leg broken by a cave in the Russell claim, Lowhee Creek.

Bridge Creek, July 16.—The British Columbia Telegraph Co. opened an office here to-day. The telegraph offices at 83 Mile House and Blue Tent have been closed.

Hon. Mr. Ball has announced he will hold next month in the several polling divisions of the Cariboo District, Courts of Revision under the Registration of Voter's Act.

The steamer Etta White sailed yesterday a. m. at eleven o'clock, for ports on the Sound, with about a dozen passengers. The little steamer Rose followed for Port Townsend at noon.

Passed Up.—The Shooting Star for Nanaimo from San Francisco, passed up yesterday for a cargo of coal. She has on board for Nanaimo, $1,172 value of sundry merchandise.

From the Inlet.—The Maitland in tow of the Isabel arrived from Burrard Inlet yesterday with cargo of lumber for Adelaide, South Australia.

All Safe.—Passengers from Victoria for the East, per last trip of the Prince Alfred, have arrived safely at their destination.

The Douglas returned on Saturday night from Howe Sound, whither she had conveyed Marcus Smith, Esq., chief of the survey.

Savings Bank.—A notice to Depositors appears calling in Pass Books for insertion of accrued interest a 30th June.

Personal.—Rev. Mr. Pollard returned on Saturday from a missionary tour in the upper country.

Sidewalks.—Fort street, near Quadra, is dangerous in several places.

PERU.

The Callao and Oroya Railway.—The correspondent of the Panama *Star and Herald*, under date June 3d, gives a long and interesting description of the trial trip over the Callao and Oroya Railway, to a gorge of the mountains, through which the Rima rolls, some sixty miles from Callao. Oroya is one hundred and sixty miles from Callao, and about thirty miles from the last pass of the Andes. This pass is about 16,000 feet above the level of the Atlantic. In this neighborhood, the works are being pushed on with much activity, 2,000 Chinese and 4,000 laborers of other nationalities have nearly completed the earth-work, but the grand at the summit of the Cordillera, called the Galera, 3,600 feet in extent, tasks the abilities of the contractor to the utmost. Boring through solid granite, the diamond drill has to be employed, and although 600 feet have already been excavated, the extreme cold, the rarified atmosphere at such an enormous altitude, and the difficulties of subsistence, cause much annoyance and delay to the skilled workmen in charge of this unparalled undertaking. From the Oroya, the Government, by virtue of an especial authorization from Congress, has ordered the construction of branch roads to the famous silver mines of Cerro de Pasco, to the fertile valley of Jauja, capable of producing sufficient breadstuffs for all the Republics of South America, and to the port of Chanchamayo, on the river of the same name, one of the Peruvian headwaters of the Amazon, thus effecting steam intercourse, in a wonderful short space of time, between Callao and Para, via Iquitos, and Callao the entrepot of the multifarious and rich products of the interior. The contract for building the road was signed between the Government of Colonel Balta and Mr. Henry Meiggs, late in the year of 1869, and the first earth was turned in Lima on the 1st of January, 1870. The price fixed was 27,600,000 soles (a sole being about 94 cents of an American gold dollar); payments were stipulated to be made as the work proceeded, and the road was to be delivered, completed and equipped to the Government within six years from the date of contract. This, Mr. Meiggs is confident, will be faithfully fulfilled. It was at first estimated that there were 7,000,000 cubic yards of filling and excavation. There are many cuts of a different character made from the solid rock; four viaducts of iron, measuring in the aggregate 1,290 metres; thirty-eight bridges over the river Rimac, and forty-two tunnels through live rock covering a distance of nearly 20,000 metres. The work challenges the admiration of the world.

The correspondent concludes his trip by saying: The Callao and Oroya Railway, after having travelled 100 miles and ascended to a height of 7,000 feet above the sea—all accomplished with many and long stoppages, some of an hour, within seven hours, going quietly around curves of a minimum radius of 200 metres, some indeed smaller, and climbing up grades of from 2 to 4 per cent.

CHILE.

A Wealthy Hospital.—The Coronel Hospital at Valparaiso is in a fair way of becoming immensely rich, thanks to the contributions of British shipping. In April last, the sum received from that source amounted to $1.044 30, as follows: Corcovado, $249 50; Cuzco, $543 50; Asiatic, $137 60; Aracucania, $180 60; and Lusitania, $242.

Small-pox is very prevalent in Talca, and the disease has also made its appearance in some of the neighboring villages.

Vessels arriving at Buenos Ayres from Montevideo are no longer subject to quarantine or even inspection, yellow fever having entirely disappeared at the latter port.

At Copiapo, a strong shock of earthquake, lasting two seconds, occurred on the 10th.

Non Idem.

Editor Standard:—As I have been twelve years residing in this country, and being of sober and temperate habits, I was surprised to see my name published in Saturday's *Colonist* in the list of D.D.'s at the Police Court. I am not aware of any person in the Province bearing the same name as myself, and as some people may think it is me, to such I would say, I most emphatically deny the soft impeachment as regards myself; it may have been somebody else of the same name. By inserting these few lines you will do me justice and confer a favor on

Stitch! Stitch! Stitch!—But no longer with fingers weary and worn. For the justly celebrated "Lockman Sewing Machine" can be had of the undersigned. This machine has more points of excellence than any other yet invented. In simplicity of construction, perfection of workmanship, ease of working, durability, cheapness, and many other valuable qualities, it stands unequalled. SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

DESTRUCTIVE FIRE AT BALTIMORE.

EASTERN STATES.

New York, July 26.—A Baltimore special says the fire in several portions of the burned district, swept rapidly through the roofs, and left the lower portions of the roofs scarcely damaged. This is deemed to be caused by the large number of shingles which were exceedingly dry, and burned like grass. In this way the fire actually crossed over the street in which the engines continued to work, and left a portion of the fire brigade working in the very centre of the burning blocks. The water was so nearly exhausted before the fire was under control, as to make it necessary to dam up the gutters and supply some engines. The casualties were of no importance, except in the case of sister Rinaldia, a nun in the convent of St. Alphonse, who died from fright. Two firemen were injured by the explosion of a steamer, but they will probably recover.

Baltimore, July 26.—This morning's *Sun* estimates the loss by the fire yesterday at half a million dollars, and states that good judges place the damage as low as $300,000. The *Gazette* estimates the loss at from $500,000 to $800,000, and the *American* estimates it at $1,000,000.

Boston, July 26.—A dispatch from Portland, Me., says a fire this morning destroyed the car, paint, tin and repair shops, one locomotive, two tenders, and other small buildings belonging to the Grand Trunk Railroad Co. The loss is estimated at $50,000; insured for $100,000.

New York, July 26.—Three of the six negroes said to be concerned in the murder of Deliah Corcoran, on Sunday last, have been arrested. The woman was first outraged, then murdered, and her body thrown into the Hudson river.

The umpire in the College regatta, held at Springfield, says that owing to the fact that only six of the eleven judges have seen fit to make a report, viz., the judges for Yale, Wesleyan, Harvard, Amherst, Columbia and Dartmouth, I shall refuse to award any other positions than those already awarded, viz., Yale first, Wesleyan second, Harvard third; the honor of the 4th place being claimed by the judges for Amherst, Columbia and Dartmouth respectively, I shall do no more than to leave them to fight it out on that line if it take all summer.

A dream came o'er me as I lay
With head on pillow pressed,
Of such a splendid fitting Coat
And Pants, and such a Vest.
Me thought that as I walked abroad
All eyes on me were cast,
But ah! my dream it passed away
T'was far too bright to last.
But still before my eager gaze
Would come the dream of other days.

One day as I walked out alone,
My mind with sadness fraught
I wondered if in this good town
Such Clothing could be bought;
Just then a friend was passing bye
Who saw the sadness in my eye,
So kindly asked me, him to tell
What grief o'er me had cast a spell
I told him of the vision seen,
Said he, go buy of **David Green.**

Cheap Cures for Great Diseases.

HOLLOWAY'S OINTMENT.

OLD SORES AND OLD SKIN DISEASES.

The seeds of these disorders are effectually expelled by this penetrating Unguent, not only from the superficial parts, but from the internal tissues likewise. Any case, even if of 20 years standing, speedily yields to its influence.

BRONCHITIS, DIPTHERIA, SORE THROAT, ASTHMA &C.

Rheumatism, and erysipelas may be overcome by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for curing sore throat, diptherria bronchitis, asthma, tightness of the chest, and pain in the side, which instant treatment alone prevents degenerating the more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

HEMORRHOIDS—PILES, AND VISCESSES.

Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these harrassing ailments.

ACCIDENTAL INJURIES, INFANTILE AILMENTS

In cuts, bruises, sprains, burns, and scalds, it will be found cooling, sedative and healing. The part effected should be fomented in warm water, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all eruptions, chafings and other cutaneous affections to which children are liable.

BAD LEGS, BAD BREASTS, OLD SORES AND ULCERS.

By rubbing the Ointment round the affected parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation diminishes, the pain becomes less intolerable, the matter thicker, and a cure is soon effected. In all long standing cases, Holloway's Pills will thoroughly expel all depraved humors from the body.

GLANDULAR SWELLINGS, STIFF JOINTS.

This class of complaint yields without difficulty to the cooling and anti-inflammatory properties of this famed Ointment. It should be well rubbed over the affected parts, after due fomentation with warm water. It acts by stimulating the absorbents to increased activity, restraining ulceration, and promoting a free and copious circulation in the parts affected, and hence speedily and effectually ensuring a cure.

GOUT, RHEUMATISM AND PARALYSIS.

Gout and Rheumatism arise from inflammation in the parts affected,—to effect a permanent cure, adopt a cooling diet, drink plenty of water, take six of these famous Pills night and morning, and rub the Ointment most effectually twice a day into the suffering parts, and a sure is certain. The paralytic patient should take about three Pills twice at week, and let the Ointment be well rubbed into the paralyzed limb which will, in a very little time, be greatly benefited—indeed many cures have been effected by this treatment.

ERUPTION ON THE SKIN.

In this class of complaints, no matter the age, the sex, or the place, or under what name, the disease may be classified, it may be cured if this Ointment be well rubbed into the system, and Holloway's Pills taken night and morning to purify the blood.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs	Fistulas
Bad Breasts	Gout
Burns	Glandular Swellings
Bunions	Lumbago
Bite of Moschitoes and Sand-Flies.	Piles
	Rheumatism
Coco-bay	Scalds
